

4" x 9" Rack Card Template

Please make sure that you open or import this template at 300 DPI.

If your print requires printing to the edge after trimming you must extend your artwork to the **orange** boundary box for correct bleed. Any thing in the **orange** shaded area will be trimmed off. Keep all type or logos inside of the **green** line to assure they will not be trimmed during finishing.

Delete this Layer

You **MUST** delete this layer to keep it from printing on your final product.

IDM Print is not responsible for reprinting your job if this layer is included in final file.
